Help Plan a **Universally Accessible Playground!**

The Sacramento Parks Foundation, a coalition of four local park districts, Arcade Creek, Arden Manor, Fulton-El Camino and Mission Oaks, is exploring the possibility of developing a Universally Accessible Playground.

The Arden Arcade community will benefit greatly from a Universally Accessible Playground where children can play together regardless of their abilities. This proposed park will be the first in the greater Arden Arcade community.

We need your input!
The success of this project depends on community involvement. Please join us for our community meetings.
