Barton states the emPOWERment Park updates are still underway and staff has reached out to Zuri Alliance for assistance. Barton notes that due to the large storm, there were several downed trees throughout the District. Barton states that several trees will also have to be removed, which won't be covered by insurance.

Curtola states several recreation updates including, summer program planning being underway, the Spring/Summer Rec guide being assembled, the Sweetheart's Dance with 75 people in attendance, the Hula Hoopla family dance on March 2, the start of the English Learners Soccer program with 175 children

registered, an upcoming iPhone training class, the MOTAB campus tour of Sacramento State University, and the rattlesnake avoidance dog training on April 21.

Director Todd recommends adding more diversity to program pictures. Curtola agrees.

Hichborn notes updates being made to the District including working on the signage plan, the ADA evaluation of MORPD finalizing by the end of March, new flooring being input at the district office, HVAC at GCC finalizing, irrigation being input at Valley Oak Park, the Tiger Security contract ending and staff will need to go out to bid, and the district having lost several trees due to recent storms.

Hichborn states that one tree at Ashton Park fell into a house causing damage but no one was hurt and a tree at Gibbons Park fell into a fence. Hichborn notes that due to increasing concern from Ashton Park neighbors, staff had an arborist evaluate trees at the park and found five trees with root rot that will need to be removed that will not be covered by insurance.

Director Alcalay questions if MORPD staff removed the trees. Hichborn states that due to the type of equipment MORPD has available staff were able to remove the small/medium-sized trees, however, staff had to contact R&B Quality Tree Care to remove the large trees.

9. Review of Facilities Committee Meeting on January 30.

Friedrich states that a change to the report should be made. Attachment B should be changed to the updated version of the presentation given.

Director Alcalay gives a summary of the January 30 Facilities Committee Meeting. Director Alcalay states that a decision wasn't made but did want the discussion to be part of the Master Plan discussions.

Public Comment: Julie Gabele states that she presented at the Facilities Committee meeting and that letter submissions and Zoom were very helpful for the people who couldn't attend. Gabele notes she is trying to open a conversation about park issues, Arden Little League's dominant usage, and the lack of usage allowed for neighbors. Gabele states that neighbors want change, openness, and transparency. Gabele notes that she feels resistance from MORPD which makes it hard for everyone to be good partners. Gabele states that she wants to make sure that planning for the Master Plan is an open and transparent process.

Public Comment: Andrew Brown states he is not opposed to baseball but is opposed to the batting cage being built at Valley Oak Park and the added amount of noise. Brown notes that he doesn't see CEQA plans and believes there are legal issues that need to be looked into. Brown states that Arden Little League noted in their presentation a large number of their kids live in the Arden Park neighborhood and notes they can find a different park to build the batting cage at. Brown states he will not have lights or a new batting cage installed at Valley Oak Park.

Director Alcalay states people may have conflicting wants but everyone involved needs to be good neighbors. Director Alcalay states he wants temperatures to be lowered so a future discussion can be held.

Barton explains to public that the proposed installment of a new batting cage at Valley Oak Park did not come from staff and that staff wouldn't go out to the community or CEQA until direction was given from the Advisory Board.
